PRICE 2 CENTS

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from indigestion, or, in other words, from the "Golden Medical Discovery." It is the most valuable medicinal principle known to modern science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener. The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherry bark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. H. H. Hurd, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensatory; Prof. J. M. Scott, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive free booklet giving extracts from writings of all the above medical authorities and many others endorsing in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

FRENCH CABINET RESIGNS.

The Clemenceau cabinet fell suddenly last night under dramatic circumstances at the conclusion of a violent debate over the French naval scandals, extending over several days. M. Delcasse, chairman of the investigating commission, led the attack upon the naval administration, especially during the incumbency of M. Pelletan and M. Thomson, former ministers of marine. But M. Picard, who succeeded M. Thomson, had promised in the name of the government to complete a series of reforms, both in the administration of the department and the methods of construction, and the chamber was ready to vote confidence in the government, when an incident occurred which changed a majority into a minority.

Premier Clemenceau, who always has been an adversary of M. Delcasse, smarting under the criticisms, and doubtless over-confident of a majority, which on July 15, upon the general policies of the government was 182, taunted the ex-minister of foreign affairs, who was thrown overboard by the Rouvier ministry at the dictation of Germany during the crisis of 1905, with having led France to humiliation at Algiers.

The specter of that chapter of France's foreign history in which a J. Delcasse was sacrificed was a fatal error. Instantly there was an uproar of dissent from both sides of the chamber. Delcasse lunged back the taunts in Clemenceau's face with bitter words, declaring, amid cheers, that France had gone to Algiers in the interest of peace.

The scene when Clemenceau took his seat was indescribable. Amid the wildest excitement the vote was taken, and when it was announced that the government had been beaten, 212 to 176, Clemenceau clapped his hat on his head pulling it far down over his eyes and stalked out of the chamber, followed by the other ministers, in token that he intended to resign.

M. Clemenceau went immediately to the Elysee Palace, and told the story to President Fallieres, who seemed stupefied at the incident which caused the fall of the cabinet, but he accepted the resignation of the premier and his ministers.

BOMBARDED WITH EGGS.

After an unsuccessful attempt to lure Rev. Ralph T. Coursey from home, the paragon of the Second Methodist Church in Cambridge, Mass., was bombarded about 10 o'clock Monday night with several broadsides of eggs. At daybreak the house was a sight, and it may take a coat of paint to obliterate the traces of the damage. The outbreak is due to Rev. Mr. Coursey's prominence in the movement to have the blues laws enforced.

Rev. Mr. Coursey received a telephone message about 9 o'clock Monday night asking him to come over to east Cambridge to officiate at a wedding. He had heard rumors of probable attempts at assault and remained at home, which perhaps saved him from getting the bombardment himself, or even worse treatment.

About an hour after the telephone message, when the family was about to retire, the unknown visitors and the eggs appeared.

The agitation for the enforcement of the blue laws has been going on for some days, and Sunday the lid was down tight. Cigar and soda counters were closed, and the drug stores would sell nothing except on prescription.

Rev. Mr. Coursey, with other ministers, had been a leader in the closing movement, and Sunday morning delivered a sermon on the subject, when he gave considerable emphasis to his views.

[COMMUNICATED.]
BAD ODORS.

A few days ago there appeared in the Gazette a communication stating that a bad odor existed in the extreme southwestern section of the city. This communication, I judge, was written in order that it might do some good, but it hasn't. A gentleman living in that vicinity on Sunday visited the adjoining portion of Fairfax county. He found that the real cause of the odor was that a resident of the Fourth ward had had cart loads of garbage dumped right outside of his property and had covered it with cloth. Of course, this did not prevent the garbage from smelling, as he probably thought. It has been lying there for about one week and the people in that vicinity have stood it that long. But they won't stand it any longer. If a policeman had visited that section during the past week he certainly would have smelt it and it would have been his duty to report it to headquarters. But, as most everybody knows, this section is visited by a policeman about only once a month. The residents of that section have gone to the citizens complained of about it, but he paid no attention to it. He simply replied that he had stood the nuisances of other people and they will have to stand his nuisance. But I would like to bet, if this odor were caused by another person, it wouldn't be long before it was stopped.
